CONCERN KALASHNIKOV

HERITAGE

Izhmash master-crafted firearms were born of our beloved Tsar, Alexander I's vision to equip Russian forces with leading edge weaponry. Under Alexander's command, Andrey Deryabin, a mining engineer, selected Izhevsk Iron-Works as the premier firearm manufacturing facility to handle this task and our legacy was born.

Topped by a clock tower representative of Izhevsk and steeped in the rich history of the Udmurt Republic, Izhmash still stands proudly along the Izh River... and is still the stronghold for premier weapon production.

Great regard for the iron-clad demands of boots-on-the-ground combat forces led to the early manufacture of Berdan rifles, followed by production of the now famed Mosin Nagant. From a humble beginning of seven rifles, 10 handguns and a handful of backwords, we eventually grew to produce over 1.5 million rifles during World War I and over 11.3 million rifles and carbines during the Great Patriotic War, commonly known

as World War II; in fact, Izhmash produced more firearms during this time than all of Germany's manufacturers combined (10.3 million).

While we readily equipped ground troops with millions of state-of-the-art rifles, manufacturing was also broadened to include anti-tank weapons, automatic aircraft guns, semi-automatic pistols and revolvers. Shortly after the close of the Great Patriotic War, we introduced, perhaps, the most famed military rifle, the Automat Kalashnikova model 1947, better known as the AK-47. Even now, 66 years after its introduction, the AK-47 has been adopted by armed forces in 106 countries, including numerous special force units in every corner of the globe.

In 2012, Izhmash merged with Izhevsk Mechanical Plant and diversified product offerings, the most popular being the famed Saiga hunting rifle and tactical shotgun line. Saiga's rifles and shotguns were born of the same attention to detail

and fundamental design of the ever-popular AK-47. In August, 2013, to capture the spirit of diverse offerings as a result of our merger, Izhmash was renamed Kalashnikov Concern.

Today, Concern Kalashnikov still stands proudly as a testament to our unwavering commitment to quality craftsmanship. And, as one of the world's largest firearm manufacturers, you can be sure

our legacy, built on the sweat of master-craftsmen and battle-field tested generation after generation, is as strong as ever. Our commitment is to ensure you are the next to author our living legacy.

Concern Kalashnikov's legacy-driven products include:

- Military weapons
- Sporting and hunting firearms
- Automatic aircraft guns
- Guided artillery gunning complexes
- Test vehicles for maintenance and repair of tank armaments
- Motorcycles and Automobiles
- High-Quality capital goods and machinery

In Memory of
Mikhail Kalashnikov
11/10/1919 - 12/23/2013

TABLE OF CONTENTS

Concern Kalashnikov of Russia, one of the world's largest firearms manufacturers and the manufacturer of Saiga rifles and shotguns, Biathlon target rifles and of course, the legendary AK47, along with the Baikal line of fine shotguns, rifles, air pistols and rifles. appointed RWC Group LLC. as their exclusive US importer during the 2014 SHOT Show.

Saiga rifles and shotguns are based on the classic, rugged and reliable Kalashnikov design, manufactured by one of the world's oldest (founded in 1807) and largest firearms companies, Izhmash in Russia. In addition to importing the Saiga rifles in 7.62 x 39, .223, .308, and 5.45 x 39 caliber and Saiga autoloading shotguns in 12, 20, and 410 gauges. RWC now imports the line of Baikal products including shotguns, rifles, combination guns, air pistols and rifles.

RWC will also have Kalashnikov models featuring Command Arms Accessories' battle proven furniture. In addition, the original Izhmash furniture and a complete line of original Izhmash factory replacement parts and magazines will be available from RWC.

IZHMASH

SAIGA AUTOLOADING SHOTGUN

The Superiority Of The Autoloader.

The Izhmash Saiga autoloading shotgun incorporates the Kalashnikov design, providing reliability and simplicity of operation. Outstanding accuracy is achieved by the smooth bore or Lancaster style elliptical barrel, which imparts a spin on projectiles, increasing accuracy and exterior threading to accept chokes. The chrome lined barrel, chamber and gas system resist corrosion, making cleaning easier and extending the life of the shotgun.

A lightweight, impact resistant polymer sporter stock and forend are checkered for comfortable control and include 3/4" sling mounts. An oversized trigger guard allows use with gloved hands. Models are available with side optic mounting rails, bead front sight, V notch rear sight or leaf rear sight. Included is a detachable five round magazine (two round hunting magazines are also available).

Available In:

12 / 20 / 410

IZHMASH

SAIGA AUTOLOADING RIFLE

Rugged And Reliable Rifles. The Saiga autoloading rifle is based on the rugged Kalashnikov design. In the Saiga line of rifles, this timeless design utilizes a proven gas piston system, rotary bolt, and very few internal parts that provide the reliability that Izhmash has delivered for over 60 years.

A hammer forged, chrome lined barrel and chamber provide the ultimate in long life. The driftable post front sight with protective ears is adjustable for windage and elevation. The notched side catch with bar rear leaf sight is adjustable for elevation. The rear sight has presets for 109, 218, and 328 yards. The comfortable, ergonomic operating handle makes charging the firearm effortless. The spring-loaded magazine release provides for quick magazine changes. The elongated selector handle allows for a smooth transition from safe to semi-auto. Includes one detachable magazine. The .308 model is available in two barrel lengths, 16" or 21.9".

Available In:
7.62 / .308 / .223 / 5.45

FEATURES

- Simple, effective, and reliable firearm for hunting and self-defense
- Gas operated rotating bolt with detachable magazine
- Side rail for optical sight
- Equipped with a high impact polymer hunting buttstock and forend

SU1

RWC SU1

The SU1 Saiga upgrade features a impact resistant polymer stock, forend and pistol grip. Outfitted to authentically represent the original Kalashnikov design and configured to accept traditional 30 round double stack magazines. The SU1 is available in 7.62 x 39 and 5.45 x 39 calibers. All required parts are 922(r) compliant. SKU: **SU1**

FEATURES

- 922(r) compliant
- Available in 7.62 x 39 or 5.45 x 39
- Polymer handguard, buttstock and pistol grip
- Accepts traditional 30 round magazines

SU2

RWC SU2

The SU2 Saiga upgrade recreates the classic Kalashnikov design with the addition of the CAA skeletonized collapsible butt stock with unique extension design and a rubber recoil pad. The use of the AKTSP stock tube allows the stock to sit horizontally with the receiver providing an improved sight picture.

The ergonomic pistol grip with interchangeable finger grooves and backstraps provides a strong and comfortable grip. The skeletonized RS47SET polymer forend with 4 rails adds mounting surfaces for lights, lasers, forward grips and optics. The UPG47 Pistol Grip with six interchangeable finger grooves and backstraps provides a strong, comfortable grip even while wet. All required parts are 922(r) compliant. SKU: **SU2**

FEATURES

- 922(r) compliant
- Accepts traditional double stack magazines
- Polymer handguard with rails (RS47SET)
- Skeletonized Collapsible buttstock (SKBS)
- Rubberized pistol grip with interchangeable finger grooves and back straps (UPG47)
- Available in 5.45 x 39 and 7.62 x 39

RWC SU3

The SU3 Saiga upgrade recreates the classic Kalashnikov design with the addition of the CAA fully adjustable stock (SRSNL) featuring a ten position adjustment for stock length, cheekpiece is adjustable for height and eye relief, and the rubber butt pad is vertically adjustable. The pistol grip with 6 interchangeable inserts for the finger grooves and backstraps (UPG47) allows the grip to be sized for any hand. Storage in the pistol grip for batteries and other small items is covered by a snap cap.

The aluminum 5 Picatinny rail system (XRS47) is designed for the secure mounting of heavy optics. The receiver dust cover is accessible and removable without removing the rail system. All required parts are 922(r) compliant. SKU: **SU3**

FEATURES

- 922(r) compliant
- Accepts traditional double stack magazines
- Aluminum 5 rail system (XRS47)
- Fully adjustable stock with monopod (SRSNL)
- Pistol grip with interchangeable panels (UPG47)

IZHMASH RECORD

TARGET RIFLE. The Record comes complete with a removable rear notch sight, hooded front sight tower, threaded muzzle with cap, two magazines, rubber butt pad and additional length adjustment spacers, detachable metal carry handle for ease of transport, rubber foot covers for the bipod, sling, a leather carrying case with handle and detachable strap, cleaning rod, oiler and tools in a carrying case.

Available In:

7.62

SPECIFICATIONS

SKU	WEIGHT	OVERALL LENGTH	WEIGHT	MAGAZINE CAPACITY
IZ180	7.62 x 54R	46.45"	9.48lb	10

All specifications subject to change

The ultimate in target rifles. this powerful, accurate and comfortable rifle is capable of reaching out to the farthest targets using magazine fed 7.62 x 54R ammunition.

The Record features a competition-style stock so shooters get a custom fit with the height adjustable cheek piece and inserts to adjust the length of pull. In addition, the trigger position is adjustable relative to the stock grip. The stock features a detachable carry handle, removable bipod and monopod.

FEATURES

- Fully adjustable trigger
- Optics can be mounted on Picatinny rail
- Removable bipod with independent leg adjustment
- Fully adjustable competition stock with retractable monopod

IZHMASH

BIATHLON 7-4 (VER 8) / 7-4 (VER 10)

Over 120 Biathlon Medals Won.
The latest evolution of the Izhmash Biathlon line of rifles, these models represent a truly world class competition rifle for the Winter Olympic sport of Biathlon. Based on the proven straight toggle lever lock system developed over 30 years ago by Izhmash, these rifles allow fast cycling of the action between shots with minimum disturbance of the shooting position – a tremendous advantage in a sport where mere seconds can separate a gold medalist from an also-ran. Trigger is adjustable for single or two-stage function, length of first stage, creep, and release weight (50g-1500g). Improved hammer forged barrels with reliable accuracy to -20C provide confident performance in all conditions. A completely redesigned stock provides optimum ergonomics for both shooting positions, including the maximum 120mm stock depth allowed by current IBU regulations. Other improved features include a lighter front sight assembly, compatibility with industry standard M18x0.5mm front sight accessories, an adjustable butt plate and cheekpiece, and industry standard accessory rails to accept typical harness, handstop, and sling components.

Available In:

.22LR

SPECIFICATIONS

SKU	CALIBER	CALIBER	LENGTH	REAR SIGHT	WEIGHT	MAGAZINE CAPACITY
120	7-4 (ver 8)	.22LR	41.33"	IZHMASH	9.92lb	5
IZ145	7-4 (ver 10)	.22LR	41.33"	11mm receiver dovetail	9.92lb	5

All specifications subject to change

FEATURES

- Reload without changing the ready position with toggle lever barrel bore locking system with vertical rotation axis.
- Chrome lined, hammer forged, air gauged barrel for improved accuracy in low temperatures.
- Trigger mechanism is adjustable without removing the action from the stock.
- Hammer interlocking device in trigger mechanism allows for shooting blanks.
- Center of mass, cheekpiece and the match stock are all adjustable.

ADDITIONAL FEATURES

The Biathlon 7-4 ver. 8 & 10 comes complete with a removable rear optical notch sight, hooded front sight tower, eight magazines, sling, a leather carrying case with handle and detachable strap, cleaning rod, oiler and tools in a carrying case. Stock is naturally finished hardwood and metal components feature an extremely durable matte black finish. The Model 10 features a chrome plated receiver and barrel in place of the matte black finish for further improved weather resistance and durability.

IZHMASH

BIATHLON BI-7-2KO

TARGET RIFLE. This collectable and practical .22 LR target rifle features the famous Biathlon toggle lever action for quick round chambering. This world famous action, found on many championship Olympic rifles, provides the quickest reloading during any match and is now available at an affordable price.

The toggle lever action is mated to a free floating, long lasting, cold hammer forged heavy barrel, factory tested to produce 1" groups at over 50 yards. A 4" Concern Kalashnikov Weaver on dovetail scope base is factory installed for mounting the optic of your choice. The practical birch hardwood hunting stock with pistol grip hand checkering and a polymer buttpad provides a strong and comfortable platform for all of your target and small game activities. The safety is mounted on the trigger guard for quick access and two 5 round magazines are included.

FEATURES

- The receiver, front sight and rail are all integral with the barrel, contributing to increased accuracy.
- Iron sights are set for two firing ranges: 28 yds and 82 yds
- 4" receiver mounted rail for optical sight options

IZHMASH

SOBOL (SABLE) / KORSHUN

HUNTING RIFLE. Birds And Small Game. The accuracy, comfort, and ease of operation in a .22LR hunting rifle for birds and small game.

Both the Sobol and Korshun feature a monte carlo stock with checkered pistol grip providing comfort, control and accurate shooting. The stock features magazine storage and is available in birch hardwood or walnut. Just as in Izhmash's world famous biathlon rifles, the Sobol's action is operated with a toggle lever allowing for quick and easy reloading. The receiver's dovetail base accommodates an optical-sight mount. The design allows for shooting over the iron sights without removing the optical one. The hooded front sight reduces glare & prevents damage. The Korshun's semi auto free blow back action is operated using a finger lever. The safety for both models is mounted on the trigger guard.

MP-43KH

Side-By-Side Shotgun With Double Trigger And External Hammers.

The MP-43KH's design includes all the quality, precision and safety elements of the MP-43E-1C but is designed for those hunters and shooters who also are cowboys at heart. Few things stir our American spirit and passion for the Old West like Cowboy Action Shooting. Nearly all of us, at one time or another, have wished we could experience the grit and glory of our 19th century western culture – six- gun on your hip and shotgun at the ready. Maybe you'd rush headlong into a cattle drive or simply roam the open range. Either way, the MP-43KH complete with safe external hammers and side-plates, stirs that timeless spirit with the look of a genuine antique Cowboy Action firearm. The MP-43KH offers the same quality, reliability and service life that made our break-barrel action famous. Whether shooting or hunting, the MP-43KH offers the same high quality, reliability and long service life consistent with our Baikal break barrel design. Safe handling of the external hammers is provided by:

BAIKAL

MP221

Side-By-Side Break Action Rifle. The MP221 reinvented the classic side by side rifle while maintaining accuracy in both barrels at an affordable price. The MP221's elegant appearance and light weight underscore the reliability derived from the MP220 design. Accuracy in both barrels is achieved by use of a ribless joint between the barrels, the loose fit of the RH barrel into the front sight sleeve and the use of jackscrew between the barrels to set zero. Available in 30-06 Spr. or 45-70 Govt calibers.

Available In:

.30-06 / .45-70

MP155

Semi-Auto Shotgun. The new MP155 has a lighter weight and improved balance than it's predecessor. Now with an adjustable comb drop, facilitated by spacers between the stock and receiver. The trigger group has been redesigned to provide a shorter trigger travel and a larger safety button. The MP155 is the workhorse of semi-auto shotguns, easily digesting any combination of 3 ½", 3' and 2 ¾" 12-gauge loads through an under-barrel tube magazine, without adjustments. The MP155 offers flawless performance at high-firing rates with the rugged reliability you demand from premium quality firearms. The MP155 is the perfect solution for law enforcement, hunting, target shooting and home protection applications.

MP61

Air Pistol - Single Shot & Repeater.

Our MP61 Spring-Piston Five-Shot Repeater Air Rifle is the perfect match whether you're a new shooter, introducing someone new to our shooting heritage, teaching marksmanship or just getting in some plinking time. The MP61 combines rugged reliability and proven accuracy to ensure confidence building shooting and training. Along with tighter shot patterns, the MP61 includes a fixed barrel with side-cocking lever, slide pellet feeder and removable magazine. The polymer forend and stock with cheek-piece is adjustable for length and allows for mounting of red dot and magnified optics. The MP61's greatest attribute is value. With premium quality, spot-on accuracy, proven durability, and the type of price point Baikal is famous for, the MP61 may well be the perfect shooting storm! The MP61 Spring-Piston Air Rifle is easy to cock, fun to shoot and fairly quiet with a noise level ranging from low to medium.
